This program is designed to prepare students with the knowledge and skills necessary to become an entry-level web developer. As a student in the program, you will learn about web design and development. Upon graduation, students should be able to develop robust, data-driven websites.

See Advisor for Program admission procedure. All students in the Web Developer program must demonstrate Computer Literacy proficiency by either completing CISA 101 or by passing the Computer Skills Assessment exam.

For more information about our graduation rates, the median debt of students who completed the program, and other important information, please visit our website at https://www.csi.edu/ge/WebDev
